

Game Play Instructions

1. Place all three picnic baskets randomly and face down on the dirt spots with mushrooms without looking at the number on the backside.
2. Roll the dice and remember your number ($1/2=1$, $3/4=2$, $5/6=3$).
3. You can now begin the game! Grab a woodland character and head for the start.
4. Take turns rolling and moving on the path until you have reached one of the picnic baskets.
5. First to reach a picnic basket can turn over to reveal the number on the backside. The number rolled at the beginning of the game gets the midnight snack!
6. If you have reached the destination and the number does not match what was rolled at the beginning of the game, repeat step 1 and continue playing from where you left off.

Fold on the dotted lines
